# DIRECTOR'S NOTE

Every year we at Zenxin, celebrate this day for the most wonderful women in our lives - the Mother's Day.

This year is special to me as I received my second daughter last November. It was the second time I witness and experience my wife's pregnancy time when she had morning sickness during the first trimester, sacrifice her work time, can't travel for fun, didn't get to eat some of the favourite food and losing a lot of "me time".

It has been 5 months since the little one was born, my wife is still recovering from the major operations and have to take care of the two girls at the same time. Hence, I do think my wife deserves a lot of support and respect from me, same as my mother who spent her life time to take care of us, as well as the rest of the mothers, who are playing the major roles in supporting their families and make sure their families live healthily.

This is the second year when we continue our Mother's Day theme: Best for Mums, Good for Everyone. We promote foods which are especially good for your mums and good for you at the same time. We prepare the organic vege bouquets which you can send to your mums, and she can display them and eat them at the same time!

We will also organize our "organic makan session" - our Parents' Day appreciation lunch or dinner in different area namely Singapore, Johor, KL, Penang using our Zenxin and Simply Natural ingredients. We want your mums to come together with you to celebrate together.

We hope to see you and we want to hear about your feedback to our products and service if you haven't visited our shops for quite some times. Do check out our Facebook or main page about the events schedules, you can send in your requests if you want to join our events. We will try to accommodate you as much as we can.

Besides Mother's Day celebrations, I also think that our dads deserve to be healthier and being taken care as well. We will have a series of products which are best for dads, good for everyone as well.

Lastly, we hope that you can always spend more time together with your mums and dads, which we think that will be the best gifts to them. (Let me put up my last advertisement: You can bring them to our sincere food trail through Zenxin Travel!)

Wish you a Happy Mother's Day and Happy Father's Day!

Organically Yours, The Team Leader of Zenxin, Sengyee

# ZENXIN ENVIRONMENT FRIENDLY INITIATIVES

# **Repurposing Plastics**

ZENXIN have started to repurpose non-recycleable plastics into ECO-BRICKS under ZENXIN ECO-WALL PROJECTS. We collect non-recyclable plastic bag and 1.5litre plastic bottle from public area and housing area. Then, we repurpose it into eco bricks to make Eco-Wall for our nature classroom. It takes a lot of patience and hard work in making each Eco-Bricks. We need 1000 ECO-BRICKS for our ECO-WALL ,that means that 400Kg of plastic will be repurposed .

Now you can join our effort too. Send us your Eco-Bricks Now!

Collect 1.5 litre bottle and nonrecycleable plastic bag

Use a stick to fill up the bottle with the non-recycleable plastics.

Weigh the eco-Bricks (make sure it is 400g/each).

# Composting

Compost or black gold are really important in organic farming. We use vegetables waste, fruits, palm fiber and plant foliage from our farm in making compost. We also cultivate our own Indigenous Micro-organisms (IMO) as compost activator to speed up the composting process. The mixture creates symbiotic food web within the soil. IMO feeds on the decaying material and helps to aerate the soil while keeping the moisture.

Compost helps to recondition soil. Nutrient-rich soil bed is essential for the plants to grow healthily and be more resistant to disease and pest. It helps to control weeds too! We can reduce a large volume of trash that goes to landfills if we can compost all our biodegradable waste.

# **Eco-friendly Packaging**

Amendments of Eco-friendly packaging has always been our concern since we announce about our 6R (Reduce, Re-use, Recycle, Refuse, Replace, Repurpose) Environment commitments. We have started and trying hard in replacing all our plastic packaging into degradable tray and paper tray.

Degradable tray we use contain the additive Oxium that catalyses degradation of the plastics. It will begin to breakdown in two years from the days it has been manufactured. We are also proud to announce that we are not increasing our vegetables price cost even tough it is 5% expensive than the traditional plastics. On the other hand, our paper tray can be re-used before composting

ιτ.

Support us today by sending your clean and unused bags, carton boxes to any Zenxin Organic Food Outlet! Together we can reduce the waste from single-use plastic!

# BEST FOR MOM GOOD FOR EVERYONE

# Organic Beetroot

Zenxin's Organic Beetroots are air-flown directly from Victoria State of Southern Australia, where the BEST Organic Beetroots are grown! These certified organic beets have the most vibrant colour, crunchy and taste sweet with no unpleasant earthy taste at all, making them just perfect for juicing. High in Folate; highly recommended during pregnancy for a healthy birth weight & to prevent neural tube defects in newborn babies. Don't forget to look for our Simply Natural's Organic Handmade Beetroot Noodles and Mee Sua that are made using high quality Australian Organic Flour and 20% Australian Organic Beetroot puree.

# Organic Hemp

Plant-based protein powerhouse! Simply Natural's Organic Hemp products are certified organic, nutritious and totally safe for consumption. The hemp plant known as Cannabis sativa is grown organically without the use of pesticides, and processed mechanically without the use of hexane to retain its quality. Hemp has an impressive protein profile; they contain 20 amino acids including 9 essential amino acids that the body unable to produce and must only be obtain from foods and they are beneficial for working mothers to build healthy lean muscles and to increase bodily strength and stamina. It also provides Omega-3 and Omega-6 in an ideal ratio of 3:1, help middle-aged women to reduce the risk of osteoporosis. Our Organic Hulled Hemp Seeds, Hemp Oil and Hemp Protein Powder are easy to use and makes a great addition in protein rich meal.

# Organic Muesli series with Finnish Oats

What better way to start the day other than to enjoy a bowl of colourful, flavourful and wholesome oatmeal. Simply Natural's Organic Muesli series are made using Organic Finnish Oats with the combination of certified organic nuts and dried fruits. Free from added sugar & preservatives, these muesli are definitely the fun and healthy breakfast choice, great for pregnant mothers to prevent gestational diabetes and help older mothers to keep their blood sugar level in check. Pick from our 3 bestsellers; Organic AntiOx Chia Muesli, Organic Belly Friendly Muesli and Organic Happy Energy Muesli. They are super easy to make; simply steep in equal parts of muesli and hot water or steamed milk and enjoy immediately.

# Organic Lakadong Turmeric Powder

An ancient spice with a kick! Grown in Darjeeling, surrounded by beautiful tea estates, this Organic Lakadong Turmeric Powder is farmed and milled under bio-dynamic agricultural method. Finest Lakadong variety from Darjeeling contains higher curcumin content (6-7 percent) compared to normal variety (<5 percent). Curcumin is an active phytochemical in turmeric may improve symptoms of osteoarthritis (OA) & rheumatoid arthritis (RA) by reducing pain & eases mobility. Best for elderly mothers with joint problems. Look for our Simply Natural's Organic Handmade Turmeric Noodles and Organic Handmade Turmeric Mee Sua that are made using Australian Organic Flour and Organic Lakadong Turmeric Powder. These noodles are perfect to be served as cold appetizers or Asian style hot noodle soup.

# Organic Moringa Tea

Grown in Ambootia (model estate for Organic and Biodynamic System of Agriculture); is a flagship garden to Ambootia Group in India. Moringa Tea gives an instant energy boost without the content of caffeine. Drinking this tea simply helps to improve overall health, combat fatigue and boost healthy immune system.

# 60 degree Muts

The degree of perfection! Simply Natural 60° Nuts are made of high-quality premium nuts, dried fruits and seeds, dehydrated at 60°C. It's crucial to use a low temperature to retain the oil property of the nuts, thus preserving all their natural goodness. Healthy snacking is proven to boost level of brain activity and to alleviate stress at the same providing all the nutrients. They are perfect for snacking and great to be added into breakfast cereal or baked goods.

# Lecithin Granules

Truly young mothers best friend! Lecithin Granules have been long known to help breastfeeding mothers. Lecithin is a supplement that is made from soy and has the

potential to disperse fats and oils in plugged milk ducts that causes mastitis. Apart from that, lecithin is composed of choline that helps to boost brain function and help to improve menopausal symptoms by improving physical health and blood pressure levels in menopaused women.

# Organic Tulsi Tea

The Queen of Herbs! Tulsi, commonly known as Holy Basil or Indian Basil has a history of religious and spiritual significance among Hindus. Tulsi are known for its adaptogenic ability where they help to balance, restore and protect the body internally and externally. Sourced directly from India, our Organic Tulsi Tea is grown biodynamically without the use of chemical fertilizers and the leaves carefully hand-picked, dried and processed with care and attention. The unique synergy from the crisp mountain air, warm sunlight and pure water from the gurgling streams delivers an exceptional flavour to our Organic Tulsi Tea. This tea is a natural stress reliever and is suitable to subside headaches and to energize the body.

# Organic Quinoa

Sourced directly from Peru, this gluten free grain has complete protein that helps to repair, grow & build worn out muscles. Certified Organic by NASAA & USDA, this high protein grain is grown under strict organic agricultural method. It's common for women to develop gestational diabetes during pregnancy, but eating a diet rich in protein can help lower that risk significantly. The majority of women need a minimum of 75 grams of protein per day when pregnant and depending on the individual's weight and physical activity levels especially in the second and third trimesters for both mother's and the healthy development of baby. Look for our series of quinoa products; Organic Mixed Quinoa, Organic White Quinoa and Organic Handmade Quinoa Noodle.

# IMPORTANT NUTRIENTS FOR YOUR AGING PARENTS

As our parents age, they go through a variety of changes which affects their quality of life. They experience loss of muscle & strength, nutrient deficiencies, thinner skin and other age-related changes.

Eating healthy is especially important during this time; but we have to take into consideration that their caloric needs decreases as they age too. Hence the quality of food becomes more important, rather than the quantity of food.

They should eat a variety of whole foods such as wholegrains, vegetables, fruits, lean meat, fish and healthy fats to ensure they get sufficient nutrients daily.

Among the many beneficial nutrients, these are 3 highlighted nutrients essential for your aging parents.

Dietitian Jowynna Yeo Bsc (Hons) Dietetics with Nutrition

Growing up in a Baba Nyonya family, Jowynna has always been a foodie at heart.

She incorporates her love for food and her nutrition knowledge to bring you delicious, wholesome and nutritious recipes, along with tips & tricks!

#### TIPS

- 1. During meals, encourage your parents to eat protein first. It helps to ensure they feel full and keep blood sugar and insulin levels from rising too high.
- 2. Encourage your parents to snack on high protein food items.
- 3. Encourage your parents to have a handful of nuts a day. It's good for their heart too.

#### ANIMAL-BASED PROTEIN FOOD SOURCES:

Eggs, lean meat, fish, seafood, milk, cheese, yogurt and other dairy food products.

#### **VEGAN PROTEIN FOOD SOURCES:**

Tofu, tempeh, soya chunks, soymilk and other plant-based milk, all kinds of nuts and seeds, edamame, hemp seeds, beans, peas, lentils, quinoa, nutritional yeast and peanut butter or other nut butters.

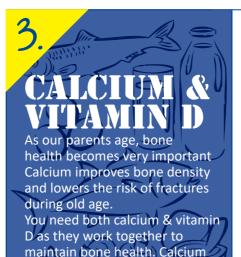

#### **TIPS**

- 1. Encourage your parents to choose wholemeal or wholegrain bread over white bread.
- 2. Add wholegrains into family meals such as brown rice, wholewheat pasta, oat groats, buckwheat, millet, quinoa and more.
- 3. Include plenty of vegetables during family meals.
- 4. Try adding pulses such as beans, lentils or chickpeas to family dishes such as curry, salad, soup or stews.
- 5. Encourage your parents to snack on wholegrain crackers, vegetable sticks, fruits and unsalted nuts or seeds.

#### **FIBER FOOD SOURCES:**

Fruits & vegetables, sweet potato, wholegrains – oats, brown rice, millet, quinoa, buckwheat, popcorn, wholemeal bread, wholegrain crackers, wholewheat pasta; nuts & seeds, chia seeds, psyllium husk, lentils and beans such as kidney beans, chickpeas, split peas and more.

helps to build and maintain

healthy bones, while vitamin D

helps the body absorb calcium.

#### TIPS

- 1. Ensure your parents spend some time under sunlight to get some Vitamin D the sunshine vitamin.
- 2. Include milk and other food items which are high in calcium and vitamin D in family meals.

#### **CALCIUM FOOD SOURCES:**

Milk, cheese, yogurt & other dairy products, dark leafy green vegetables, sardines, almonds, tofu, edamame and more.

#### **VITAMIN D FOOD SOURCES:**

Fatty fish and seafood such as tuna, mackerel, sardines, shrimp and anchovies; mushrooms, egg yolks and fortified food items such as milk, soymilk, cereal and juice.

2 Longevity noodles with mushrooms

Method

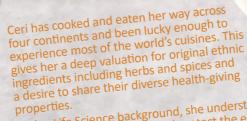

keep warm.

Wish your parents long life with this dish created from turmeric and shiitake!

Our handmade organic noodles contain 20% fresh organic turmeric purée. This golden root is a renowned antiinflammatory, soothing muscle aches and joint pains and improving circulation.

> Shiitake mushrooms with their umami flavour add deliciousness to any dish. They are antimicrobial and boost the immune system, which grows weaker with age. They lower cholesterol and help prevent plaque accumulation.

Stir-fried in the 'Olive oil of the East', organic, cold-pressed camellia seed oil, and with the 'Long Life' symbolism of our lovingly crafted noodles, this dish is truly worthy to wish your parents longevity and good health!

With a Life Science background, she understands how important it is to choose fresh organic foods to nourish the body and protect the environment. Join her to learn how to find the best sources of essential nutrients available in Singapore to suit your lifestyle.

Ceridwen Anne Wolf B.Sc. (Comb. Hons.) / P.G.C.E. Rural Science

experience most of the world's cuisines. This gives her a deep valuation for original ethnic

until the mushrooms are cooked.

2. Add the oil to the pot, followed by the chopped onions. Stir fry until

onions become transparent, then add the Japanese sweet choy sum.

4. Add fermented black bean sauce to taste. Stir well. Set aside and

5. Boil water in a separate pot and cook noodles for 7 mins.

6. Drain noodles and drizzle them with toasted sesame oil.

7. Add the noodle dressing to taste, mixing gently.

8. Serve the noodles topped with the

of carrot and Japanese cucumber.

mushrooms and garnished with parings

3. Add in the shiitake and chestnut mushrooms and continue to stir fry

# PARENT-INES ORGANIC DINNER WITH ZENXIN ORGANIC FOOD

Good for everyone. Especially great for the Parents!

In this month of Love, Zenxin Organic Food is partnering up with Yin's Sourdough Bakery again to bring you a wholesome organic meal celebrating the Parent's Day!

The events will be held in both Yin's Whole Food Cafés in Bayan Baru and Damansara Uptown. All ingredients used are specially selected by Zenxin Diet & Nutrition Team and then crafted by Yin's kitchen team for a special meal full of love and appreciation on food. It will a dinner with meet & greet with those who works very hard behind the scene to source, prepare and cook, all for a better and healthier you.

In conjunction to the Parents' Day celebration, both Zenxin Bayan Baru and Damansara Utama outlets are also organizing simple workshops and sharing sessions for the children. Whether it is for your elderly parent or for your own, the workshops are great for those who like to age gracefully and stay energetic!

The full menu will be announced on Zenxin Organic Food Malaysia event page. All parent members are entitled a special reward price and if you wish to bring along your parents, they get a super special discount!

Check out our Facebook page for more updates and information!

# LET'S GO LATURAL WITH ZENXIN TRAVEL!

Did you plan your trip for the next half year? Do you love Nature?

Are you interested in implementing an "Environment Friendly" travelling style during your journey?

Zenxin Travel was set up 3 years ago. With our humble origins in sustainable farming and healthy living, we offer our customers different experiential journeys with a focus on sustainable food production and Mother Nature.

Text: Mingxin | Proofread: Ceri Photo Credits: Daniel Choo (Tour Mate)

# Sincere Food Trail @ Cameron Highlands and Perak

The Sincere Food Trail just had a perfect ending this March. This truly a tour which exemplifies the 'Farm to table' concept! The youngest tour mate was only 3 years old and the eldest was above 70 years old. They had the same amount of fun in the 4 farms and other parts of the natural vacation!

Part of the fun of this tour is that we encourage our customers to harvest whatever they can find in the farms to be enjoyed at the next meal. Most of the vegetables which appear on the dining table during the tour are harvested from our organic farms.

# ZENXIN TRAVEL

By harvesting themselves, everyone, including the children, experience that the veggies come in many shapes and sizes and although they may look 'ugly' they are still yummy to eat.

On the tour our tour mates also have opportunity to dig out the organic sweet potatoes from the earth and baked

them immediately! They were fantastic! None of our tour mates could believe that the land was a sandy field a few years ago. The soil has been so improved by the current farmers that it can now produce sweet potatoes, peanuts and Chinese turnip(or sengkuang).

Our adult customers challenged themselves to scour the mountain looking for the freshest organic vegetables. Everyone joined in and helped each other, taking care of each other's children. Beautiful moments of bonding together ensued, although they had only just met. And, more than anything else we all enjoyed the beautiful scenery!

Next Trip Depart from Singapore: 10<sup>th</sup>-14<sup>th</sup> September 2019, 5 Days 4 Night

(This a special trip extended for one extra day and night to visit and experience the wonder of the world's largest flower, the Rafflesia.)

Depart from Malaysia:
Please whatsapp to +6 012 370 8299

Depart from Singapore:

Please whatsapp to +65 8142 9299

# Our Eco Trip @ Johor

Our Eco Trip is a trip to educate people how to "reduce waste" in our daily life. Before the tour, all the tour mates will receive a list of rules and regulations. Both adults and children have to follow the rules listed. To join Our Eco Trip, you will need to bring along recycle bags, a food container and a water bottle.

We believe that Mother Nature cares for all of us. So, we actually stay in Nature, for example on a tree!

Most people worry about this situation before the trip, but we have proved that this is the most unforgettable part of Our Eco Trip. Yes, there may be a thunderstorm, there may be a snake in the jungle and the children may fall down while climbing up the mountain. But we face all the problems and solve them together!

Beside all these exciting situations, we also learn to create new toys from rubbish. We all learn to wash our own utensils after a meal, even if you are only 3 years old! Our meals are made with no artificial colourings and no preservatives, we also reject using straws and plastic mineral water during the trip. Our Eco Trip combines environmentally friendly workshops, storytelling, and music as well as some challenging activities. All activities are conducted by professional instructors.

So, if you are a true 'Nature Lover' and someone who cherishes a 'Green' environment, join in the fun of Our Eco Trip, experience the challenges and be surprised by our ingenious solutions!

Next Trip Depart from Singapore: 14<sup>th</sup>-16<sup>th</sup> June 2019, 3 Days 2 Night

# Simply Nature Trip @ Johor

If you want a short get away from your busy lifestyle, a 2D1N 'Simply Natural Trip' may be the answer!

During the 2D1N period, we explore different types of agricultural industries by visiting a fish farm, a pineapple farm and our own Zenxin Organic Park, just outside of Kluang.

In order to enjoy the local culture and fresh air, we have chosen a local homestay for the overnight. To better understand where our food comes from, we will also enjoy workshops in the farms we visit.

Why did we create this 2D1N 'Simply Natural' tour? Just like its name, we want to offer you the joys of simply being in Nature. We believe that Nature has the ability to uplift and refresh our spirits and inspire us anew.

The 2D1N 'Simply Natural' tour is also designed for special getaways such as a family gatherings, office retreats, school trips or even a club event. Our team is able to customize trips to suit your personal requirements for any dates, providing at least 8 people join the group.

Next Trip 8<sup>th</sup> - 9<sup>th</sup> June 2019 (Kluang-Muar-Tangkak)

(This trip is customized for

celebrating parents' day. Join our organic high tea event on 25th May to get at least 20% discount. Refer to Page 15)

Next Trip 31<sup>st</sup> May - 27<sup>th</sup> July 2019 (*Muar & Tangkak)* 

Durian Season is coming soon!
Follow us to the durian plantation for more durian hunting inspiration.

Zenxin Travel believes travel and learning go hand in hand. Our trips are mostly educational tours in Nature. Our passion is to captivate and inspire people. We carefully design each of our programs to fit individual needs. We do not only bring you to the "must see" and "must eat" venues, but we also want you to listen to the background stories before we see and eat!

Zenxin Travel wants to be a travel agent that educates and encourages the public to love our 'Green' environment and Mother Earth! Gather together all your friends, the more the merrier and let us create a memorable trip into Nature for you!
